

## Takata (Philippines) Corp.

Takata (Philippines) Corporation manufactures automotive safety products and components, specifically fabrics for car air bags and seatbelts, air bag cushions, and various assemblies. The company was founded in 1997 and is based in Laguna Technopark, Philippines.

### The Project

Takata Plant 1 and 3 : 16,194 sq.ft. production floor needs to be refurbished within 4-5 day plant shutdown

### The Solution

The scope of specification was an epoxy coating system with 3 coats system smooth finish for the production floor areas which would be hardwearing, abrasion resistant and aesthetically good.

Zumicon proposed the whole system of Sealbond EFC 80 with the primer, crack filler : (1 coat Eposeal 100lv primer with 2 coats of EFC 80 as topcoat)

Client and consultant were delighted by the quality of work and on time delivery.
